

AMM's second year of life

AMM IN THE 28th INTERNATIONAL MONTESSORI CONGRESS IN PRAGUE

AMM was proudly represented by its founders in the 28th INTERNATIONAL MONTESSORI CONGRESS in Prague. The President, Mrs. Aicha Sajid, was one of the speakers under the theme Pathway to Peace: Montessori Education for Social Change.

We are looking forward to sharing our work with the participants of the 29th INTERNATIONAL MONTESSORI CONGRESS, in Thailand, in 2021!

MEDIA & VISUAL COMMUNICATION

WEBSITE

With our new graphic identity, the AMM website also evolved into a more colourful and dynamic media.

Please visit AMM's website:
www.montessorimorocco.org

LOGO

Our second year has started with a new light! Now that the AMI logo is included in all our publication, we worked to create more harmony between our two logos and visual identities. Our new graphic identity delineates our strong commitment to AMI quality standards.

AMM OFFERS NEW SERVICES

As we believe that human potential is unlimited, we build commitment to peace by supporting parents and schools.

Parents

We support parents by offering them a range of quality services, such as workshops and Parent Ed sessions to help them deepen their understanding of the Montessori philosophy or to set up a Montessori inspired environment at home. Home consultations are also offered.

AMM will also guide parents in their search of an authentic Montessori school for their children.

Schools

AMI pedagogical standards maintain the level of excellence that Maria Montessori envisioned. Established by the AMI Scientific Pedagogy Group, the standards insure that each school offers programs for their children that allow for their full intellectual, social, and psychological growth and that the approach is consistent with what is presented in AMI training courses worldwide. AMM has crafted an Accreditation Program to support schools offering Montessori programs.

THE TIME IS NOW !

AMM MEMBERSHIP RENEWALS

Our goal is to spread quality Montessori practices in our region such that more children benefit from outstanding Education. We cannot achieve this goal by ourselves. A small participation can make a big impact. Please join Association Montessori Morocco and become an agent of peace.

Memberships are open for year 2018.

Outreach Projects

MONTESSORI BEYOND THE SCHOOL WALLS

The majority of the families in the Moroccan culture employ a caregiver or nanny. Montessori Beyond the School Walls supports caregivers to learn more about the Montessori philosophy and embrace Montessori methods at home.

We have offered sessions designed specifically for these dedicated caregivers. Such that we could meet the diverse needs of our community, multiples sessions were offered in either English, French, or Arabic.
